

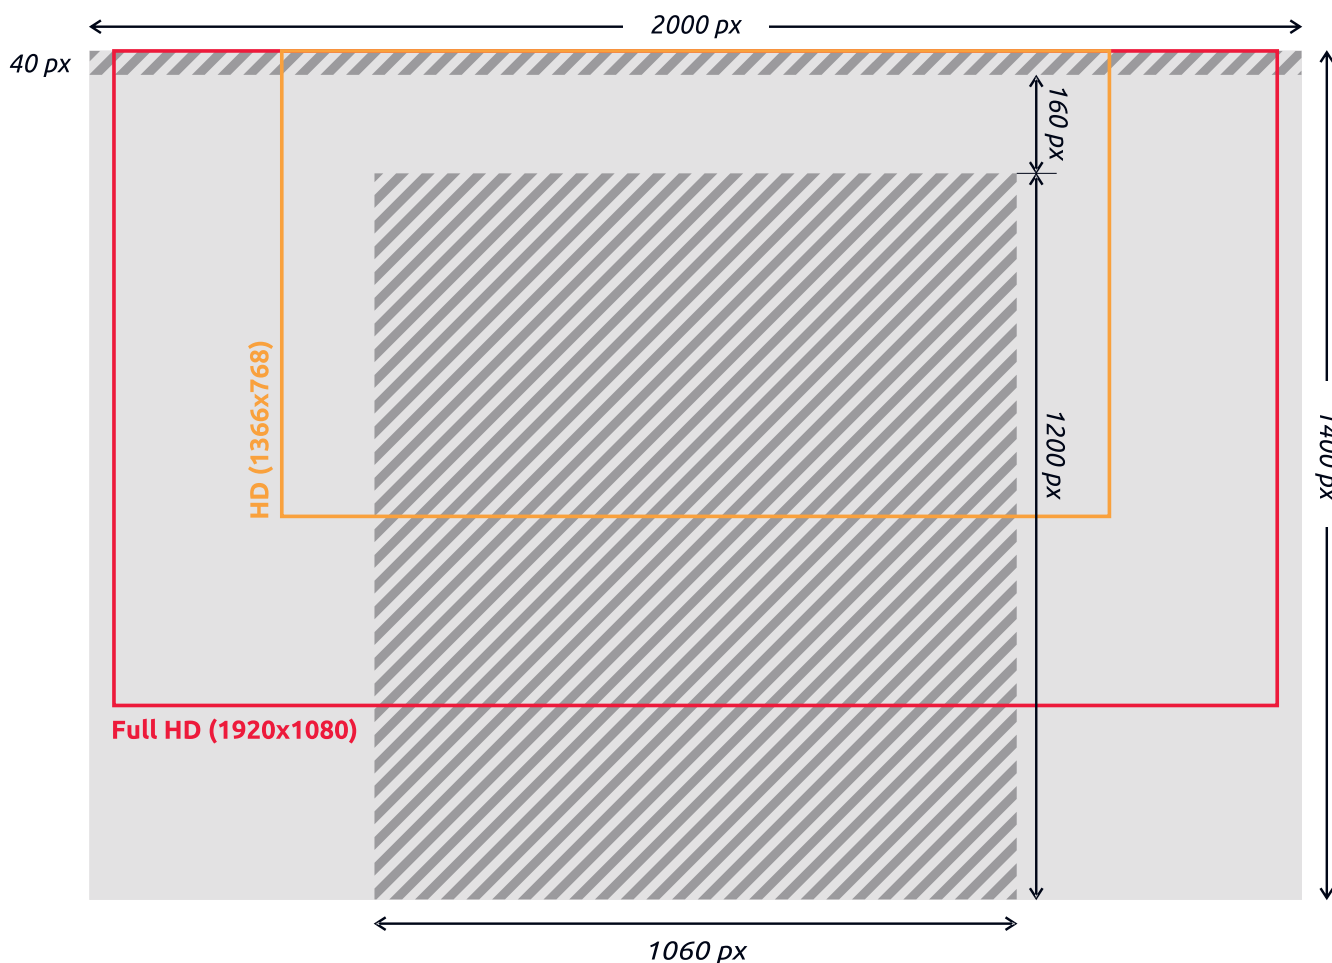

Graphics size 2000×1400 px

Supported file types::
JPG, PNG, GIF or HTML5

Filesize up to 350 kB

- Place for graphics
- Areas covered by websites*

* This area is covered by the website content and it is not suitable for placing important graphics. However, it does not have to be covered in its entirety (part of the site may be transparent). Therefore, we recommend to tune these areas with colour or gradient corresponding with the overall design.

Examples of final design:
